

ITN 2013-2017

COLD MOLECULAR IONS AT THE QUANTUM LIMIT
A MARIE CURIE ITN FUNDED BY THE EUROPEAN COMMISSION

COMIQ

2nd Training School

DATE:

1-2 June 2015

VENUE:

Wissenschaftszentrum
Schloss Reisenburg

PROGRAM:

Scientific talks
Student session
ESR progress reports
Poster session

SPEAKERS:

F. Schmidt Kaler
M. Drewsen
O. Dulieu
F. Gianturco
R. Maulini
T. Softley

K. Brown

TOPICS:

Introduction to Quantum Information
Internal quantum-state preparation
Electronic Structure Theory
Ion-molecule reaction theory
QCL Lasers
Generation and applications of
cold molecules
Precision chemical dynamics and
quantum control of ultracold
molecular ion reactions

External Participants are very welcome (Fee 100 EUR)
Detailed **program** and **directions** are available.
